

# Physician Associate

## Overview of the role

Indictive Salary AfC 7  
AfC PA Preceptorship 6

Max reimbursable amount over  
12 months (with on cost) -  
£53724

Physician associates are healthcare professionals with a generalist medical education, who work alongside doctors providing medical care as an integral part of the multidisciplinary team. Physician associates are dependent practitioners who work under the supervision of a fully trained and experienced doctor. They bring new talent add to the skill mix within teams, providing a stable, generalist section of the workforce which can help ease the workforce pressures that the NHS currently faces.

## Funding

From April 2020, this role will be reimbursed at 100% of actual salary plus defined on-costs, up to the maximum reimbursable amount of £53724 over 12 months via Primary Care Networks.

## Training/Development

Physician Associate students already have an undergraduate degree in a life science and/or a significant background in healthcare. To become a physician associate, students take a 2-year, full-time, intensive Postgraduate course at diploma or masters level in Physician Associate studies. A list of courses can be found here: <https://www.fparcp.co.uk/becoming-a-pa>. It includes over 1,400 hours of clinical placement experience in both acute and community settings. A new route via a 4-year undergraduate Masters programme will run subject to approval. Once qualified, physician associates must maintain 50 hours of CPD per year and sit a recertification examination every 6 years.

## Activities Undertaken

- "Taking medical histories from patients
- Performing physical examinations
- Seeing patients with undifferentiated diagnoses
- Seeing patients with long-term chronic conditions
